**FIRST** Terms & Conditions

The information you provide in the Registration System is necessary for **FIRST** to properly identify a team, the people and the organization directly supporting the team, and to ensure that competition data is accurate for every team.

**FIRST** respects the privacy of all those involved in its programs and will protect the information given to it according to the Privacy Policy.

**Team Registration**

Each **FIRST** team must have two adults, registered in our system to serve as the Coach/Mentor 1 and Coach/Mentor 2 contacts for the season. Each contact must enter a unique, not shared, email account.

For U.S. and Canadian teams both Coach/Mentors must pass screening. The screening is a criminal background and sex offender registry check. Please review the **FIRST Youth Protection Policies** carefully at the **FIRST** website.

**FIRST Robotics Competition Team Registration**

- The FIRST Robotics Competition gives high school students and their adult mentors the opportunity to work and create together to solve a common problem. Challenged to design and build a robot using a standard "kit of parts" and with a common set of rules to play a sophisticated field game – all in just six weeks – brings out the best in students and adults alike. The robot "game" changes every season and is always exciting.

- FIRST redefines "winning" by rewarding teams for achievements not necessarily gained on the field of play – excellence in design, demonstrated team spirit, Gracious Professionalism®, and the ability to overcome obstacles are all recognized with awards. Winning is always secondary to the quality of the overall experience.

$350 Million in Scholarships available to our Participants! If you would like to start a FIRST Robotics Competition team in your area, we welcome you and promise to provide you with all the support, ideas, and encouragement you need to succeed!

Remember: NO EXPERIENCE REQUIRED AND YOU ARE NEVER ALONE!
FIRST Tech Challenge Team Registration

It's way more than building robots. FIRST Tech Challenge teams (10+ members, grades 7-12) are challenged to design, build, program, and operate robots to compete in a head-to-head challenge in an alliance format. Participants call it “the hardest fun you’ll ever have!” Guided by adult Coaches and Mentors, students develop STEM skills and practice engineering principles (like keeping an engineering notebook), while realizing the value of hard work, innovation, and sharing ideas. The robot kit is reusable from year-to-year and can be programmed using a variety of languages, including Java.

Teams also must raise funds, design and market their team brand, and do community outreach for which they can win awards. Participants have access to tens of millions of dollars in college scholarships. Each season concludes with Super-Regional Championships and an exciting FIRST Championship.

If you choose to invite a Coach/Mentor 1 and/or 2 at a later time you can do this by selecting "Manage and Invite Team Contacts" from your dashboard. Both Coach/Mentor 1 and 2 will also be required to pass Youth Protection screening. Your team will not be able to invite youth members to participate on the team or register for an event until your team has both a screened Coach/Mentor 1 and a screened Coach/Mentor 2.
