Transportation (12)	100	100	Varies (\$0 - \$500)	<input type="text"/>
<b>TOTAL</b>	<b>\$1,422</b>	<b>\$912</b>		<input type="text"/>

### NOTES:

- (1) The FIRST Season Fee covers the cost of registering one team for the competition season, regardless of team size (2 - 10 team members). Flat-rate shipping cost (\$12) for the Team Meeting Guide and Engineering Notebooks is included in the amount shown.
- (2) The FIRST Nevada Season Fee covers all Kickoff/Workshop/Scrimmage/etc events, one Qualifying Tournament (aka Qualifier) and, if the team qualifies to advance, the Championship Tournament.
- (3) Although not strictly required to participate, the Challenge Set (season's field mat and mission models for the Robot Game) generally is purchased by teams to practice for competitions. Flat-rate shipping (\$15) is included in the amount shown. As information, the Challenge Set was previously called the Field Setup Kit.
- (4) The FIRST LEGO League SPIKE Prime Robot Set is \$425, and shipping is \$20.
- (5) Teams may find they want additional parts or need replacement parts.
- (6) Taxes may added, depending on your team's situation (e.g., tax-exempt non-profit, etc). There may be additional shipping costs if items beyond the Challenge Set and/or Robot Set are ordered.
- (7) Teams will need a compatible electronic device (laptop or tablet), which we have assumed most will have already. System requirements: <https://education.lego.com/en-us/product-resources/spike-prime/downloads/system-requirements>
- (8) Generally speaking, a field table can be assembled by reasonably "handy" people with parts from the hardware store costing about \$50 - \$100. There also is a pre-fabricated table available from AndyMark ([andymark.com](http://andymark.com)) for about \$200 - \$230 (depending on options), plus about \$50 - \$70 for shipping.
- (9) Team T-shirts are not required. Also, teams can cut costs by using plain T-shirts and decorating them with markers, iron-on decals, stickers, patches, etc.
- (10) Teams typically need to purchase posterboard, binders, etc. Some teams may pay for printing. Other costs may include things like snacks for team meetings and events.
- (11) Teams often give small items to other teams at tournaments as a form of good will and/or promotion. This is not a requirement. Also, you can make giveaways instead of buying them.
- (12) Many teams have "free" transportation because it is provided by parents (perhaps with some sharing of fuel costs). However, some school-based teams are required to use school/district transportation, which can be very expensive if vans/buses/etc with a district driver are required.
