CONTINUE YOUR JOURNEY AS AN ALUMNI VOLUNTEER

As a FIRST® Nevada alum, you know the proven impact of our programs. When you give back as a FIRST Nevada volunteer, you empower the next generation of future change makers. Opportunities to volunteer range from a few hours to a whole season and can involve contributing in technical or nontechnical ways. Positions vary depending on the program and can support teams or events. Build up the next generation of innovators by volunteering with FIRST Nevada today.

FOR INSPIRATION & RECOGNITION OF SCIENCE & TECHNOLOGY
FIRST Nevada is a non-profit organization promoting FIRST® robotics programs and STEAM education initiatives in Nevada.
Stay Involved

As a FIRST Nevada alum, you are part of the FIRST Nevada community for life. Here’s how you can stay connected and keep the inspiration flowing.

**JOIN YOUR LOCAL ALUMNI GROUP**
One of the most fun and organized ways FIRST Nevada Alumni come together are via structured alumni groups. Regional Groups are generally affiliated with an identified FIRST Nevada territory or region and are often led or supported by the local FIRST Nevada organization. Collegiate Groups are usually a grassroots effort led by a FIRST Nevada alum to create a chapter at their respective school and bring together other FIRST Nevada alumni on campus.

**JOIN THE FIRST NEVADA ADVOCACY NETWORK**
Are you interested in learning how to advocate on behalf of expanding STEM engagement opportunities for kids? Subscribe to the FIRST Nevada Advocacy Network, our state and federal advocacy community.

**CONNECT WITH LOCAL LEADERSHIP**
FIRST Nevada helps young people build a better future where they want to belong. The FIRST Nevada community empowers students to be good global citizens who understand that they can use their collective skills to make a positive impact in one person’s life, in their community, and even the world. Find out how you can help today by reaching out to your local leadership.

**AMERICORPS VISTA PROGRAM**
FIRST Nevada AmeriCorps VISTA (Volunteers in Service to America) members work in low-income and low-resource communities to facilitate access to FIRST Nevada STEM programs.
