VOLUNTEER AND MENTOR OPPORTUNITIES

Each season, FIRST Nevada uses hundreds of volunteers for our exciting events. Whether you have a few hours to volunteer or an entire day, there is a volunteer role suited to your unique talents and interest. Event volunteers take on a variety of roles from judging to crowd control; both technical and nontechnical roles. We welcome all talents, ideas, skills, and enthusiasm, with no experience required.

Mentors are individuals from all backgrounds and disciplines who work with students to share their knowledge and expertise to guide them through the season. Mentors can contribute as little or as much time as they can dedicate to a team.

OUR MISSION

Our mission is to inspire young people to become science and technology leaders by engaging them in exciting mentor-based programs that build science, engineering and technology skills, that inspire innovation, and that foster well-rounded life capabilities including self-confidence, communication, and leadership. FIRST (For Inspiration and Recognition of Science and Technology)

OUR VISION

"To transform our culture by creating a world where science and technology are celebrated and where young people dream of becoming science and technology leaders." — Dean Kamen, Founder of FIRST

OUR GOALS

The ultimate goal of FIRST Nevada is to substantially strengthen the school-to-career pipeline through which young people are inspired to explore opportunities in STEAM in order to foster the next generation of science, innovation and technology leaders.

FIRST LEGO LEAGUE
Grades 4-8

FIRST TECH CHALLENGE
Grades 7-12

FIRST ROBOTICS COMPETITION
Grades 9-12
